The property

Pitchingstone House was fully rebuilt in 2019 to the highest standards to take best advantage of the spectacular panoramic far-reaching sea and country views.

Extending to in excess of 4000 sq ft the property is constructed from block and steel with a slate and zinc pitch roof built in the New England style and clad with grey Cedral weather boarding and white painted render. Internally the house offers spacious and light open plan accommodation throughout with the kitchen, dining and sitting rooms opening out onto an extensive composite decking area with glass balustrade, ideal for al fresco dining and admiring the views. The sitting room also has a Storex woodburner. Arranged over 3 floors, the house is accessed directly from the driveway by a wide staircase leading to a covered porch. All the ground floor rooms lead off from the double height entrance hallway with galleried landing. To the rear of the property there are a selection of rooms which offer flexible accommodation plus a large utility and boot room with separate store access. An oak staircase with open treads and glass balustrade leads to the bedrooms and bathrooms on the first floor. The master

bedroom, guest bedroom and principal bathroom offer magnificent panoramic sea views. Beneath the living accommodation accessed from the driveway there are 2 double garages with electric security doors housing the Zehnder Mechanical Ventilation and Heat Recovery system plus hot water tank and central heating controls with hot and cold running water.

Outside

The property is accessed via a private driveway which has been recently retarmacked providing parking for several vehicles. To the side of the house is a detached office (Modbox) with double glazed sliding doors, Cedar cladding and its own decking area. The office has separate electric heating, WIFI and BT telephone landline. To the rear of the property is a new timber tractor shed and tool shed, an enclosed dog run extending to approx. 300 ft and a field measuring 4 acres in all. The field has a gravelled area for boat storage behind metal security gates and a helicopter landing area with the rest of the grounds currently used as a children's playing field. The field is ideal for equestrian use and is securely fenced for pets.
